

*8th September 2020*

*Dear Bondholders,*

*As part of the listing process the company submitted a listing request. The listing agent requested an additional document as standard and this document was submitted after the listing deadline. Once submitted the bonds were listed without any issues. Please accept our apologies for the situation caused by the delay to the listing of the bonds, we take this issue seriously and I will make sure that something like this doesn't happen again.*

*We thank you for your support and interest in Abax and we will do our utmost to continue to build this fantastic company. On that note I'm happy to report that the company continues to do well and we have grown the subscription base in both July and August. We also have a lot of exciting things going on within Abax and we will be providing more information on the acquisition and our business in the Q3 report. I hope that you will continue to support us and we remain available should you have any questions.*

*Kind regards*

*Morten Strand*
